PIO 174 "Following the same path separately"

All men born follow the same path. Sin is their nature.
That can be changed.

There's two choices. Each person chooses one.
WORLDLY OR GODLY

WORLDLY: (Religious)

The person following their original nature only
considers his natural lust.

Worshiping all forms of deity. The short list is
Treehuggers, money lovers. (Mammon), various animal
deities, geographic formations, man gods, weather gods,
denominations, cults of mans church, blood sacrifice of
human and animal and the most effectual political
(societal).

In the world today we see the effects of societal. Famine
,war, slavery, deception, abortion, sodomy, government
manipulation, lying, fakery and media control.

These effects have gotten continually worse. They have
not been pushed back by righteous people.

In America, the control of the people has created a
mental chaos of confusion.

The world is being manipulated by man's demonic
nature to control others.

This eternity is without the presence of God. Forever a
time of fear.

GODLY

The acceptance of Jesus Christ as savior gains the

rights of a son. With obedience a covenant relationship
with the trinity.

After accepting Jesus, the responsibility is to have faith
in God and His Word.

The faith walk requires commitment, and steadfast
obedience to the Holy Spirits urging.

The circumstances will come to prove yourself through
the trials. You are to be responsible and totally
committed.

The world tries every trick or hindrance to take you
away from God's Word.

Through faith, you will achieve the destiny God,
provided for you.

An eternity of victory and completeness in Elohim.

Not constrained by time. He is always on time, never
late.

CHOICE TIME

Your choice is, remain in captivity to a religious
worldly existence

or

Repent from your sin. Ask for Gods forgiveness. He
will forgive you and welcome you into His perfect
destiny,

YOUR CHOICE

Time is running out. Make your decision while you can.
Be eternally victorious in Christ.
