Sanctuary West Authentication Stamp

PROLOGUE

This is a compendium of my life it reveals the various paradigms as I come to my destiny.

My destiny requires that I “oversee” the spiritual activities of the Bay of the Holy Spirit. Overseer denotes my responsibility

Mat_22:14 For many are called, but few are chosen.

FIRST PARADIGM
Birth through middle school

I was born of Florence A Tomecek and Jerry Williams Tomecek. Special parents who allowed me to grow and make my own decisions.

Florence's background was second-generation America from Polish parents. My Father Jerry's, background was second-generation American from Chek parents.

I had two younger sisters Judi and Janice.

As long as I can remember us siblings we were continuously fighting.

My mother was a committed Catholic. Some of it stuck with all of us. She did get saved, later in life.

On December 7, 1941 the life in Detroit Michigan changed forever.

As a four-year-old child , I remember each night the windows were covered with drapes and large gas driven searchlights located on our block, would continually search the sky for enemy aircraft. This nightly search continued until the V-J Day events stopped.

Through the war years every commodity was rationed.

I remember war bonds, food ration stamps and gas rationing. New clothes were a scarcity and clothes were handmade by my mother.

I had a picture showing me in a military uniform it was made out of the brown blankets used by the military. Even down to a, blouse and trousers.

A handmade wooden rifle at my side.

I became my sisters protectors. It remained as my agenda through high school.

Nightmares of Hitler haunted my dreams until I was in middle school. They abruptly stopped.

My first near-death experience.

One Sunday, after returning from my father's parents, Sunday chicken dinner was a major health issue.

I can still remember the homemade chicken and dumplings. Home made pickles aged in below ground storage in concrete jars.

On arriving home, I started to have extreme pain in my stomach. Thrashing around my bed, I was rushed to the hospital with a burst appendix and an operation removed it.

PARADIGM 2

In middle school we moved to Prairie street and 6 mile in North Detroit.

Attending Jesus Catholic Church run by Jesuit priests . I learned Latin and became an altar boy.

My first business experience was as a Detroit news paper route on our home Street.

Our neighborhood community was half Catholic and half Jewish. Which made for a very diverse social community.

PARADIGM 3

The family moved to Wakenden Street in Redford Township.

I only had to walk two blocks to go to Redford Union High, graduating in 1956.

I had three newspaper routes, and eventually worked in the local drugstore for Mr. Gilfix.

I did everything including making deliveries in my two-door nash. It would freeze up and I would have to warm the radiator to thaw it out. Painted by hand, re ground the valves by hand.

It was during the 60s that “mo-town” blossomed in Detroit. I would hear all the new songs, days before they went nation wide. A real blessing.

A close friend, Joe, who came to my house every day after school. We would play ping pong until dinner.

I remembered that I would go to the dentist in Midtown Detroit, taking a bus and a streetcar. I never liked the dentist, still don't .

I loved school and was good enough that I coapted senior year. Being the laboratory assistant in chemistry and physics I didn't have to attend classes.

My teacher was Mr. Sid Quigley and he was a good friend.

My math teacher Mrs. Kingston was another teacher in whose class I did well.

I wore glasses since the second grade and was always nerd with a nickname (Professor).

I took pictures for the senior year book.

SECOND TRAUMA

One day while walking in down town Redford Township. A glass wall [blocks made of glass] was blown out of Bodker Ice Cream store, and I ended up lying on the ground bleeding from my head. When I got home after being sewn and bandaged my mother was distraught.

I survived and got a lot of free ice cream from Bodker.

During this time I got my learners driving permit. Starting out with a stick straight eight Buick. I also became the designated driver. My parents would go out to a party, I always was the chauffeur.

Met my first girl friend Marilyn . Even went with her after graduation, until my sophomore year at Michigan State University.

Her father called it off because she was Baptist and I was Catholic.

Never drank coffee, only chocolate milk until about year 2000.

THIRD TRAUMA

A result of drinking milk I had kidney stones many times. The destruction of my kidneys almost caused me to go into dialysis. The nephrologists stopped treating me when I made the decision to stand on the word of God for my healing, Not an easy path. Now I exist in Elohim healed state.

FORTH NEAR DEATH TRAUMA

In December 2014 I started having extreme stomach pains. Over two weeks of not eating or going to the bath room. My wife threatened me to get to the hospital. The result was a three inch diameter kidney stone had shut down my body.

WARNING - MILK IS FOR CHILDREN

FIFTH NEAR DEATH TRAUMA

Living on campus in Brody hall at Michigan State, I befriended the son of Charlton Heston. Built a motor cycle from a basket of parts.

One night we took a ride in towards Lansing. A car pulled out and we struck the side of the car. Waking up , a paramedic was pressing my head to stop the bleeding. Spent a week in a coma. Almost died. Had to postpone my finals.

MARY ANN

In my junior year, one day after coming into the grill on campus, I took my glasses off, due to fogging up and saw Mary Ann. I knew that I was going to marry her from that day.

In my senior year we got married and lived on campus. Left married housing because we got Suzette (miniature toy poodle) and dogs not allowed where we were,

After graduation , and starting second semester my PHD. I came to realize that was not for me.

During this time we had a baby (Jerry II), and he attended Mary Ann classes, her graduation.

I got a job teaching at Fordson High, Dearborn Michigan. I taught adult education in electronics.

Working a summer job in Ford Rouge Plant. Then started at Chrysler Engineering for three years. Ate the job up . Got a raise every month I worked there (3 years) because I saved Chrysler so much money.

My first experience in the real world of Big Metal (Automobile)

I experienced how the amount of money corrupts every vendor. Trying to get the biggest contract for components. Lying whenever they could , giving gifts, lunches to those who approved the vendors.

PARADIGM 5

I left and became a chief engineer for Warren Avis (Avis Industrial) in Washington, PA..

Eventually moving back to Detroit. I increased income, for Avis by being an engineer and sales, to the tune of over 2 million dollars.

During a development for Ford I met Henry Ford II and Edsel Ford. Real people who were interested in the Double Bitted steering column lock. (First Auto firm to use double bitted key)

PARADIGM 6

I soon came to realize I would only make real money and have control of my own, if I became independent,

Without a job I started my own business of contractor. My mother was my secretary.

Started to work on different concepts.

I offered my services to the big three automotive companies. This was the time when vehicles were starting to go from mechanical electrical to electronic control.

As a consultant, I provided converting to electronics in various suppliers to the big three.

Some firms had 10,000+ engineers in Detroit, relied upon my services. Developing interfaces and consumer products.

PATENTS

Electronic brake controllers [2] firms, in control module, single point sensors, and cruise control. Electro Acupuncture, Million mile speedometer and many more diverse products in the automotive field.

Moved my office from Southfield to our own building in Wixom Michigan.

My reputation was, I could create and manufacture diverse electronics. The next step in my destiny.

A man showed up and wanted me to make A TV accessory [channel changer]. George had orders and was in a difficult position with no product.

Redesigning and changing to a less expensive design, I started to produce large volumes of the product.

Because the manufacture of the plastic molds were delayed, I redesigned in an alternate enclosure. This largesse cost me to lose over \$300,000 in temporary design and hardware. At his request.

I salvaged his project. And so I learned that people will lie, misrepresent to gain advantage and accrue money.

Before this time another person came to me to develop a different product. Electro acupuncture was the title,

I was able to create various products using multiple methodologies.

Became the largest manufacturer distributor of these alternate medical devices. Developed the first TENS

Had a run in with the F.D.A. Unfortunately they dealt without any experience and only harassed me.

During the three year growth I had a visit from two “men in Black”. Nixon was president, and under treatment of an acupuncturist. His Chinese electronic hardware was brought to me. I reviewed it and found it was a copy of one of my designs. I repaired it, president Nixon then was reported as being back in the acupuncturists treatment.

Over this paradigm I got a few patents, mostly were put in my customers name.

Had a Judas in the marketing of the Acuflex and PMD electronic acupuncture and auricular therapy devices. Stole a lot of money through nefarious means.

Didn't think like a crook, so wasn't aware of his theft.

PARADIGM 7 Preparation for Battle

Shut down the business in Wixom Michigan. Sold the plant and our house.

Moved to Fairhope Alabama learned major lessons in people who make a profession of lying.

Was forced to move many times, even though I paid the rent, but always remained on the Eastern shore of Mobile Bay

Continue to have night dreams of products.

The next big project came and I started to work on it. Notes derived and written in the night.

It happened, the product was tied into leaking gas station tanks, and was a method to check and report if leakage. This was a major impact on the environment. The Feds allocated hundreds of millions of dollars to clean up the leakage from entering into the ground water.

Didn't know this when I started working on the "Electronic Level Fuel monitor" [ELF].

Had a couple of investors, and a Judas [unknown to me] working for me. My wife said she thought I recognized the Judas because she did. My spiritual discernment was just starting to mature and I missed that Judas affect.

After about 18 months of development, I attended a fuel marketing meeting.

It was then the magnitude exposure of the ELF revealed that could I solve the leakage problem.

Gulf Oil representative at the meeting, said they would use the ELF, and as it was completed we could update.

This order showed the fact that all major oil interests would use the ELF. Potential sales would exceed \$1.2 billion dollars a year.

Here is where the real spiritual battle began – Greed (love of mammon) reared its ugly head.

The investors go greedy, and tried to steal the ELF from me.

At a meeting set up to change ownership, I had Mary Ann come to the meeting.

After talking to the Holy Spirit a solution was provided. When Mary Ann arrived, she agreed and at the meeting I gave all the assets of the company to the investors for my complete release from them.

You could see their greed rise up, they got the ELF with its potential for "free"

They offered me a contract to finish the development. When complete, I get the lump sum.

A few more months and they gave up on the project. Never paid me and never made or sold a ELF.

After the five year waiting period, stipulated in the development contract, the Holy Spirit told me to finish the development.

Turns out that the product never would have worked as stipulated.

The answer to solve the ELF was revealed to me. As I prepared to finish the ELF again the Holy Spirit told me to stop and not work further. I immediately stopped and shut down the project.

The reason for the estoppel was that I was being prepared for a more important destiny. I would not be able to mix secular activity with Spiritual. (More on this later)

STRANGERS

Mary Ann and I would house and feed strangers.

One particular time, when my family was living with us. We had a ex prostitute living with us and a second female.

Dotty

Dotty had a checkered past, and had asked God to bring her out of her situation. This resulted in her stroke that paralyzed half of her body.

Ever thankful, during her life, in various trips to the hospital, she would go from room to room dragging her IV and testify. She touched many people for God.

I would assist her when she needed help.

The Pastor got her section 8 housing. By not having other Christians with her was not good. An old boy friend showed up got her back on alcohol. Not good for a diabetic.

Lesson here is don't fall back into your friends or activities. God takes you out- stay out. You need brothers and sisters in the Lord. Some need you closer that you'll ever know.

One day I took her to the hospital. That evening I had a dream with a black casket which had 6 white roses on it.

In the morning I got a call that Dotty had died.

I contacted Dotty's estranged family and told them what happened. A real healing ensued in her mother and two children. Life Church offered a free burial plot and Radney Funeral did all the preparation at no cost.

The day of the funeral you couldn't park within blocks. So many people came that Dotty had touched over the years of her ministry. Thousands were there !

At the grave yard I was a pall bearer and as we left the internment I looked down to see 6 white roses on a black casket. A dramatic testimony of Dotty's life.

Tonya

Our daughter died from ovarian cancer at the age of 19. On Nov 16, 1986. 3 months to the day the doctor said.

The grief of her death was the most impactful event in our life.

We will see her again in heaven. She got saved 6 months before her death.

FAMILY

We have three male children (Jerry II , Jayme and Joel), four grand children and one great grand child. And are now in our 56th year of marriage.

CHURCH

Moving from Michigan to Alabama was a cultural shock.

People ranged from friendly to demonic . After attending five white churches and three black churches our eyes where open to the two separate societies of churches .

Major difference was the black tradition is what held their churches together . We were included to some extent and part of the entire church . Many fond memories of our friends there.

The white churches were protecting of their members. They were much more independent . White churches were struggling with

their independence, which cause major migration amongst them

Spiritual Alabama

Alabama, the a state of “ thicket clearer or pathfinder” is in a country of chaos. It has experienced many lessons the hard way. Slavery , wars and riots . What have we learned.? We hid behind layers of pages of non effective laws. Always piling more on the heap. Never solving. Leaving more burdens on the population. Never doing it the way to bring peace into present day.

It has a special place in God’s purpose. In World War II ,USS Alabama was never hit by enemy fire . Provision and favor has been shown . Alabama did actions pleasing to God .

Alabama the first to sign the proclamation supporting the country of Israel . It still is. The Word says, whoever blesses Israel will be blessed .

In 2008 a sovereign act acknowledging the name of the **Bay of the Holy Spirit** was accomplished . I spent 18 years to “restore” the name. The mission of Sanctuary West is to “ restore man back to God”. By restoration of the name, honor is given to the Holy Spirit.

Protection has been provided since the dedication of the sign. An oil platform poured thousands of gallons of oil within 50 miles of the Bay. There was no damage in the Bay , hurricanes water have buried the sign, all to no avail .

I pray and hope that you would not be ignorant . Continued acts against God laws will bring judgment . i.e.. Our nation has

legalized murder. Call it women’s rights. The judgement on Sodom and Gomorrah will pale by comparison.The unrighteous acts of the elected officials go against the rights of the people and God’s laws.

My first unforgettable circumstance was when I went to Kresges and saw “ colored only “ signs bathroom and drinking fountains.

Eventually I found that Alabama has been used for disparate activities .

The name of Bay was changed to Mobile Bay and there was war, slavery, and against the will of God.

Legally this legislated change was against the rules concerning water. Water in Alabama is independent of man’s laws. No rule or law can affect the water including the name of the “Bay of the Holy Spirit”

The 2008 dedication of the sign declaring the restoration of the original name and resultant blessing started.

Restoring the name on World Wide maps will bring stability and blessing from Abba.

PARADIGM 8
The final journey

Through out my life , at least five times Satan tried to kill me. He tried to stop me from the destiny that Elohim has for me.

I look foreword to completing the task before set before me. I am protected by Abba to finish the race.

Many Spiritual activities have become manifest in this final paradigm.

Over a period of two years the Holy Spirit told Mary Ann and me about the name and purpose of our ministry back 25 years ago.

Sanctuary West is the name and called so because it occurs on the most westerly point before the Bay of the Holy Spirit from Israel and is a sanctuary dedicated to honoring Elohim . It will not be a church, but a special type of ministry to people.

Bay of The Holy Spirit restoration mission started in December , 1991 when at a pastors birthday celebration on a dinner cruise , the Holy Spirit spoke to me and said he was grieved. Saying they stole his name , and wanted me to recover and restore “Bay of the Holy Spirit”. Without a name there is no identity.

Thus began an 18 year quest of restoration.

After getting nowhere I was led to the U. S. A. Department of the interior. There Comment was if I could get the people surrounding the Bay to have the restoration. Then they would restore it . [they called it a renaming] .

A lot of blind alleys until I checked with the Library of Congress. After talking to the manager , I mentioned that I was seeking the original name of Mobile Bay. His comment was “ Oh you mean the Bay of the Holy Spirit”. Even the library of Congress knows the bay’s name was “Bay of the Holy Spirit”.They graciously supplied me with maps and documents . They prove without a doubt the Bay’s original name .

After soliciting the city of mobile, a local TV reporter interviewed me. The final question was “ there is no doubt about the original name.” I had spent a lot of time and money, but what would happen if there was no name restoration ?

My response prepared before time was. “My job was to do the work of restoration and God would finish it .”

Still no restoration , until I met with the Alabama Historic Association. They vetted the information and approved the historic sign denoting the history of the Bay.

The Holy Spirit arranged the purchase of the approved sign with the Alabama Historic Association. Installed it where the Holy Spirit wanted it placed . Double-sided for viewing from the land and water to honor the explorers efforts, on public land .

I was told by the Holy Spirit to get a USA trade mark in the name “Bay of the Holy Spirit”. It took 3 more years to get the #3984301 trademark. The dedicated sign was approved by the city of Mobile, Spanish Fort, Daphne , Fairhope and the State of Alabama .

The reason the Holy Spirit had me get a registered trade mark was to stop other ministries from using the name for nefarious

means. Two ministries have tried to usurp the name for personal reasons. And grieved the Holy Spirit.

GLEN

I first met Glen over 30 years ago, and we have become part of the other's family. A person full of God's purpose. He literally would give the shirt off his back if it was needed.

I thank God for Glen and his commitment to the Word of God. And being all that any person could be in Christ.

TERRY

Traveling the world with the military, Terry introduced me to my first Saudi Sheik.

A couple of years ago while traveling with Terry I noticed he was becoming weak. When we returned to Mobile, he ended up in the hospital.

Not being saved, lying in the hospital, I asked for someone to minister to him. I ended up at his death bed.

How can you lead someone to Christ, that could only respond by blinking his eye lids?

Well after a short testimony , he accepted Christ as His savior by blinking his eyes twice. He died two days later.

That was God's plan for Terry's salvation. Consider your life and those around you, don't wait to the last moment, it may be too late. Time is short.

SIGN DEDICATION

The day of the dedication was June,14th, 2008 .

On the 14th, I opened the door. I awoke to a Alabama down pour. I spoke to God .“We are going to dedicate this sign to your Holy Spirit no matter what the weather is.“

I arrived at the Causeway sign location. The sun was shining and a gentle Southern breeze.

Looking towards the Eastern shore and to Mobile side, walls of water on both sides. It reminded me of the Jews travels through the sea . A very encouraging revelation .

As I read the prepared dedication sign I noticed the assembled group of visitors were sitting with their hands at their side, palms up and tears streaming down their face. Most of the 50 + attending were strangers to me .

Before and after the dedication, Rabbis blew the shofar's to open and close the dedication.

The visitors told me they were Messianic Jews and were deeply touched by the Holy dedication . Some had traveled over eight hours to be at the dedication. As we left the sign it started to rain and a rainbow filled the sky .

Many Prophecies have been spoken over the Sanctuary West ministry .we stand in agreement for the purpose that the Holy Spirit gave us years ago.

NEXT STEPS

I am still working with the Holy Spirits direction to get the name restored on world wide maps.

This period of time is drawing to a close. Apostasy abounds, but God still reaches out to His creation .

There are going to be some very dramatic manifestations. As the World has never seen. There is going to be cleaning up of 5 fold ministries who have perverted the Word of God, and become as the hirelings of a demonic world. This final wake up call is to give one last chance for repentance.

Some repeats of past miracles will get the attention of a sleeping church.

These manifestations are a prelude to the Final Revival. Presented by those who have not perverted the Word, and have a true relationship covenant with Elohim.

DRIVING FORCE

Personal responsibility is given to all individuals in their destiny. Their efforts are assigned by God for His purpose. A very solitary mission can only be by the individual. Some people will come along side and assist. The responsibility is for the one called.

MY PURPOSE

The purpose of my life is to encourage and share. Follow God's plan you will fulfill your destiny.

My prayer for you, is, for all who uncompromisingly minister faith in God's Word.

ACKNOWLEDGMENT

I thank Elohim for creating a universe and a home for mankind. Every person the opportunity to come into Covenant with the Trinity.

SELAH
To Be Continued

Sanctuary West
8582 County Road #34
