TIME OF THE END.

I have been providing information about reality for many years. I only desire the truth of God's Word.

I've seen almost all excuses. Been attacked on my destiny path. Stolen from by people who have no direction but self.

In the last three days I have been stirred by the Holy Spirit, even not been able to sleep.

I see how the church has been seeking a non confrontation control of God . This "Seeker Friendly" church has no God authority, and is a totally corporation attempt to pacify with no personal responsibility.

I have always had a nagging concern about the " Prosperity Gospel"

The revelation is stark and revealing..

This is first hand experience and my concern for those people, ministers who have made salvation truth be about money.

Some have perfected there pitch so well that the remainder of the gospel takes second place in importance.

"Ecc_10:19 A feast is made for laughter, and wine maketh merry: but money answereth all things.

It as if the "Seeker Friendly" lie has a second side , "Prosperity Gospel"

These presenters have learned the Gospel of giving to get. I mean big time. Attempting by saying "give to my ministry, you receive multiply increase." A very tempting pitch. The Word is clear about giving.

Personal responsibility is required and seeking God's direction for giving.

They accumulate personal wealth, saying the workman is worthy of his hire. True, but heaping up for personal gain and not feeding God's people the truth, only provides a deception of the Word.

Money then becomes the love of Mannon, and perverts the truth of the gospel.

Then they brag about their giving and accumulation in very non specific terms. Soon and very soon there will be a recognized correction and exposure of this perverted message.

The sad part, which grieves me, is that these people started correctly, but after years of toiling have gleaned their presentation to the manner of the corporate business format.

Shalom
